

# Unconditionally

Claudia Scott

Can you see me  
Through the windows of your mind  
Coming to your rescue  
Any place and any time

Do you trust me  
To hear you when you're down  
To be there for you always  
And not melt like ice on the ground

I am right here beside you  
I am a fly on the wall  
I am the car that you ride in  
I'm the voice when you call  
I'll be the hand on your shoulder  
I'll be a rock on the ground  
I'll be someone to hold on to  
I'll be there  
I'll be there

Believe me  
I only care for you  
Just like a guardian angel  
Appearing out of the blue

There's a story  
Of how love should be  
Meant to last forever
