

Kevin Welch wrote the lyric and I wrote a number of melodies for this song, but could never land on one I was happy with. One night when I was playing guitar at home, the melody came to me and I quickly recorded it on my phone.

A World Of Trouble

It's a world of trouble
Lord the trouble we're in
Sometimes it feels
Like we just can't win
But then the sun
Comes up again
It's world of trouble
But it still spins

Got a world of trouble
I know it's true
But there must be something
We can do
After all we've been through
It's a world of trouble
But I still want you

We're way in deep
Some nights
I can't even sleep
But I made a promise
I mean to keep
it's a world of trouble
But we're still not beat

It's a world of trouble
These are hard times
High wind howls
Through the tallest pines
But above the storm clouds
Stars still shine
It's a world of trouble
But it's yours and mine

High wind howls
Through the tallest pines
But above the storm clouds
Stars still shine
