

Kevin Welch and I wrote this song many years ago, after returning from a music cruise. We were staying for a few days at a friend's house in Texas, a perfect and inspiring place to write songs.

*"All For You" is about understanding life and how our experiences and the people we meet, shape us into who we are. It is also about recognising what is good when we see it.*

## All For You

I know what this is  
I know who you are  
I made so many wishes  
On so many falling stars  
They were all for you

So many dreams have crumbled  
And faded with my youth  
Seems that every time I stumbled  
I was falling towards the truth  
It was all for you

*All for you, all for you  
All for you, all for you  
I've been waiting for you always  
It was all for you*

All the faces in the hallway  
Made me who I am  
I've been waiting for you always  
I just didn't understand  
It was all for you

*All for you, all for you  
All for you, all for you  
I've been waiting for you always  
It was all for you*
