

Long Ago

Oh, so long ago
I fell in love with you
I can't tell you why
Somehow I just knew

You were the one
There was no doubt in my mind
Just like the stars
we were destined to shine
And here we are
You and I
We've come this far

Oh, so long ago
seems like yesterday
And through all these years
We've kept a dream
That never fades

Sure there were times
I had my doubts we would win
But in the end
We made it through thick and thin
We've come this far
I'm still yours
And you are mine

Oh, so long ago
we both came in with the tide
I thank the angels
For being on our side
