

I Can't Wait

Someday we'll roll away the stone
That we have carried for so long
All our burdens will be gone
I can't wait

We will find our way to
An understanding of all views
No prayer shall be refused
I can't wait

It seems we have gone too far
And now we don't know where we are
I believe we'll find a guiding star
I can't wait

If faith is the final place
Where all fears has been erased
And the locks have fallen from the gates
I can't wait

Someday we'll roll away the stone
That we have carried for so long
All our burdens will be gone
I can't wait

We will find our way to
An understanding of all views
No prayer shall be refused
I can't wait
