

This song sums up my life as a musician and performer, always moving to the next place... John Hadley, Kevin Welch and I wrote this song in Nashville. We originally had another melody and were in the studio making the demo, when we took a break and the two of them stepped outside to get some air, I tested this melody....and it stuck.

Rolling

I'm not going to spend the day
Thinking about last night
The sun is coming up
And I'm feeling all right
Don't have a worry in the world
As long as I'm rolling

Ain't done nothing wrong
The law ain't on my trail
But when I'm on the road
Feels like I just broke outta jail
Sweet life is waiting for me
As long as I'm rolling

I've been a lot of places
I never stayed too long
Ask anybody where I've been
They'll tell you that I'm gone
Like a streak of lightning
you can't catch me
'Cause I'll be rolling

The highway is my medicine
It's keeping me alive
As long as I keep rolling
I'm never gonna die
Never gonna die
As long as I'm rolling

There's a stream that flows
through the meadow
The wind blows through the trees
That's how I feel
As long I'm rolling
Don't have a worry in the word
