

## I'll Be Fine

I was out walking  
By the riverside  
When suddenly it came to me  
And I realised  
Only from a distance  
We can see our past  
I've been on a journey  
And I'm finally home at last

It's been so long  
Since I felt this good  
So long  
I never thought I could  
Light came this morning  
Like vision to the blind  
Now I know where I'm going  
And I'll be fine

The sun is breaking through the clouds  
And peering through the blinds  
A new day calls for new ways  
Time to leave the old behind  
I'll sweep the doubt out with the dust  
Watch it fly in the wind  
We keep searching all our lives  
When the answers are within

It's been so long  
Since I felt this good  
So long  
I never thought I could  
Light came this morning  
Like vision to the blind  
Now I know where I'm going
