

California Blue

When I saw you I just had to stay
Warm nights make me feel that way
Made me dizzy for a while
So I went with the breeze
And floated with the tide

*You'll always be with me
I'll always remember you
California blue*

It's time to return to my home ground
And use the wisdom I have found
See the people I have missed
And touch the soul of the lips I have kissed

*You'll always be with me
I'll always remember you
California blue*

I heard you had a hard time again
The city can make you crazy
At times I catch myself staring
And my eyes get a little hazy

*You'll always be with me
It was so easy to fall for you
California blue*

I see your colours on the screen
Funny to think that's where I've been
There's memories wherever I go
Yes, time may pass but all I know..is

*You'll always be with me
There's a place in my heart for you
California blue*
