

## Bad Seed

A battle lost, a beating drum  
A shot that's fired from a gun  
Love gone bad before it's begun  
You and I were never one

Razor sharp a tongue can be  
I do to you, you do to me  
We make a cut and watch it bleed  
Now all we have is this bad seed

Black and white  
Deaf and dumb  
Clouds that almost hide the sun  
We spit out words and then go numb  
Can't even see what we have done

Razor sharp a tongue can be  
I do to you, you do to me  
We make a cut and watch it bleed  
Now all we have is this bad seed

This is only a love song  
Even if it's a twisted one  
We pray for strength to go on  
Whether we are right or wrong
