

Love

All the men and women, all the old and young
All the little babies, everyone under the sun
All the creatures in the universe, all the birds and the bees
Everything alive and living, all the fish in the sea
Only one word holds us together
Only one thought makes us one
And that is love

We can build a palace or we can dig a hole
We can cross boundaries, hoist a flag up a pole
We can plant a flower or burn a forest down
We can smile at strangers or run them out of town
Only one thing has the power
To make us come around.
And that is love

We can climb a mountain or stay where we are
We can sail the ocean and drive around in our car
We can make a difference no matter how close or how far
'Cause can touch somebody, just by who we are
Only one thought makes us happy
Only one word opens the door
And that is love

Love for a sister and a brother too
Love has no colour
Don't care if you're white or blue
Love has no language
Don't care where you live
You can be a winner
You only have to believe in one thing
And that is love
